CAPABILITIES

V-3™ Volumetric Capture

VirTra's V-3 Volumetric Capture Studio uses real actors instead of CGI characters, eliminating the "Uncanny Valley" and increasing the humanity of training engagement.

V-3 Characters are 3-dimensional, allowing the trainee to move around and interact with them.

Headset Curriculum

- Autism
- Mental Illness: A Practical Approach
- Mental Illness: Crisis Intervention
- Crisis De-escalation
- Mental Illness: Suicide
- Mental Illness: Depression
- Mental Illness: Schizophrenia and Mood Disorders
- Contact and Cover

Adds to Real-World

- Objects- cars, walls, rocks, etc
- Innocent victims
- Other officers/partners
- Interconnectivity with remote training
